 - c. the Cover Purchaser has completed payment of Cover Payment, which payment shall only be deemed complete when full payment of Cover Payment is finalized and successfully recorded on the relevant blockchain at the block height containing such payment transaction (“**Cover Payment Block Height**”); and

- d. if the Designated Smart Contract is in:
 - i. the same blockchain where the Cover is purchased, the Cover shall only commence from the timestamp of the Cover Payment Block Height or from the timestamp of the block height containing the Cover Specifications, whichever occurs later; or
 - ii. a different blockchain from the blockchain in which the Cover is purchased, the Cover shall only commence after ten (10) minutes have lapsed from the timestamp of the Cover Payment Block Height or the timestamp of the block height containing the Cover Specifications, whichever occurs later, and the time of the Cover's expiration shall be revised accordingly (This is intended to eliminate the time difference between different blockchains).
